ARTS AND ENTERTAINMENT

Israel has more than 230 museums, from the Tel Aviv Museum of Art to the Israel Museum in Jerusalem. These museums are works of art and objects found by archaeologists. The Dead Sea Scrolls are in the Israel Museum. The Tel Aviv Museum of Art has a large collection of Israeli art as well as world-famous European paintings.

The Weizmann Institute's National Museum of Science, Technology, and Space, is located in Herzliya. It specializes in science-related exhibits and 3D movies. The Museum for Islamic Art is in Jerusalem. It has one of the world's most important collections of Islamic art. The museum also has a collection of more than 200 antique watches. Exhibits at the Yad Vashem Holocaust History Museum in Jerusalem honor the memory of the six million people who died in the Holocaust.

Several of Israel's performing arts groups were established before the nation was formed. Israel's national theater, Habima, began in Vilnius, Russia, in 1917. From the beginning, actors performed plays in Hebrew. In 1919, Habima was selected as Tel Aviv's first National Performance Theater to begin performing in 1919.

Popular music in Israel is influenced by global trends. Israeli pop singers often perform in Hebrew, and the country's music scene includes traditional Jewish folk songs, rock, and rap. It also includes literary concerts. Kikarim is a type of concert associated with Jewish communities in Eastern Europe. The Israel Chamber Festival features more than 100 performances. Kikarim is also part of the Olmert Israeli Festival, held in the Rieger House. Their national festival includes performances of many styles of music, including Israeli folk, traditional Arabic, and classical.

The Israel Chamber Festival performs at the Rieger House in Tel Aviv.

Foundations of Democracy

Since the collapse of the Soviet Union and its communist ideology in 1991, democracy has been touted as the only real answer to the world's challenges. The true meaning and character of democracy has never been so extensively tested: are human rights for all more important than cultural tolerance of minorities? How are the rights of the media best balanced with national security concerns? Whether it comes to defining citizenship, protecting civil rights, defending free speech or fighting corruption, the democratic process is always fluid and never uncomplicated.
